

Master Skill Encyclopedia v1.0

53 skills · 10 domains · lawful only · no bypass

D1: Knowledge Access, Retrieval & Open Information

OpenAccessNavigator [Knowledge Access] — User seeks free versions of paywalled content
In: DOI, title, author → Out: OA sources, preprints, legal copies

PublicRecordLocator [Records] — Business filings, deeds, court records
In: jurisdiction, entity_name → Out: official portals, retrieval steps

LegalAccessInterpreter [Access Control] — Lawful vs unlawful access questions
In: barrier_type → Out: legal classification

RegistryFeeNavigator [Records] — Statutory fee or certified copy
In: registry, document_type → Out: fee path, order steps

FoiaAtiRouter [Government Access] — Unpublished government records
In: agency, description, jurisdiction → Out: request fields, portal, appeal path

LibraryPremiumGateway [Knowledge Access] — Premium database access
In: library_system, need → Out: card path, DB list, ILL

AuthorCopyFinder [Knowledge Access] — Author-posted PDF
In: author, title, DOI → Out: repo/faculty/author links

NewsLegalAlternative [Knowledge Access] — News paywall
In: article_id → Out: press release, wire, library DB, gov summary

D2: Digital Infrastructure, Connectivity & Systems

NetworkTopologyAnalyst [Infrastructure] — Network design/routing
In: architecture_type → Out: topology map

SpectrumAllocationAdvisor [Telecom Policy] — Wireless band usage
In: band, region → Out: allocation guidance

SatelliteLatencyProfiler [Connectivity] — Satellite internet
In: provider, orbit_type → Out: latency/bandwidth profile

DnsPathExplainer [Infrastructure] — DNS path questions
In: hostname → Out: resolution explanation

CdnEdgeMapper [Infrastructure] — CDN/edge questions
In: provider_or_url → Out: edge model

D3: Metadata, Indexing & Information Science

MetadataExtractionEngine [Information Science] — User provides document
In: file → Out: metadata record

IndexSystemNavigator [Research] — Index guidance
In: topic → Out: index recommendations

CitationGraphExplorer [Research] — Citation trails
In: DOI → Out: upstream/downstream graph

SchemaNormalizer [Information Science] — Merge heterogeneous metadata
In: records → Out: normalized table

ControlledVocabularyGuide [Information Science] — Taxonomy help
In: domain → Out: vocabulary recommendations

D4: Digital Rights, Privacy & Security

DigitalRightsAdvisor [Rights] — Digital freedoms by country
In: country → Out: rights overview

PrivacyRiskAssessor [Security] — Privacy concerns
In: platform → Out: risk profile

EthicalAccessGuide [Ethics] — Restricted content access
In: url → Out: legal alternatives

ConsentMinimizationCoach [Privacy] — Data collection design
In: purpose, fields → Out: minimization plan

DataRetentionPlanner [Privacy] — Retention questions
In: purpose, jurisdiction → Out: retention schedule

D5: Education, Literacy & Civic Participation

DigitalLiteracyTrainer [Education] — Digital skills needed
In: skill_level, goal → Out: training plan

CivicParticipationEnhancer [Civic Tech] — Digital democracy
In: region → Out: participation strategy

DigitalRightsEducator [Human Rights] — Explain digital freedoms
In: policy, audience → Out: rights overview

SourceEvaluationCoach [Education] — Source reliability
In: url_or_claim → Out: evaluation checklist

MediaLiteracyDrill [Education] — Disinformation practice
In: sample_claim → Out: drill steps

D6: Security, Encryption & Safe Access

SecureAccessAdvisor [Security] — Safe browsing/hardening
In: device, threat_model → Out: security plan
ThreatSurfaceMapper [Cybersecurity] — Attack surface
In: architecture → Out: threat map
CredentialSafetyAnalyst [Security] — Credential handling
In: account_type → Out: safety guidance
EncryptionModeSelector [Security] — Encryption choice
In: use_case → Out: mode recommendations
PhishingPatternSpotter [Security] — Suspicious message
In: message_redacted → Out: pattern flags

D7: Business, Governance & Organizational Systems

CorporateStructureInterpreter [Business] — LLC/corp/partnership
In: jurisdiction, entity_type → Out: structure explanation
RegulatoryComplianceAdvisor [Governance] — Compliance questions
In: industry, jurisdiction → Out: compliance checklist
PublicFilingInterpreter [Records] — Business filings meaning
In: filing_type → Out: explanation
EntityGraphBuilder [Business] — Related entities map
In: seed_entity → Out: public entity graph
UboPublicPathGuide [Business] — Beneficial ownership public path
In: entity, jurisdiction → Out: public UBO/PSC paths

D8: Research, Analysis & Knowledge Synthesis

EvidenceSynthesisEngine [Research] — Multi-source questions
In: topic, sources → Out: synthesized analysis
MethodologyAdvisor [Research] — Study design
In: field, question → Out: method guidance
DataInterpretationGuide [Analysis] — Dataset questions
In: dataset → Out: interpretation, caveats
AchMatrixBuilder [Analysis] — Competing hypotheses
In: hypotheses, evidence → Out: ACH matrix
TimelineConstructor [Analysis] — Chronology needed
In: events → Out: timeline

D9: Policy, Ethics & Global Knowledge Equity

KnowledgeEquityAnalyst [Ethics] — Access inequality
In: region → Out: equity analysis
OpenKnowledgeStrategist [Policy] — Expanding access
In: organization → Out: strategy plan
PublicDomainResearcher [Knowledge Equity] — Public-domain content
In: work, year, jurisdiction → Out: PD sources
OaMandatePlanner [Policy] — OA policy design
In: institution_type → Out: mandate checklist
AccessBarrierAudit [Ethics] — Audit access barriers
In: service → Out: barrier inventory, lawful mitigations

D10: System-Level Access Control & Authorization Logic

AccessControlInterpreter [Access Control] — Barriers permissions
In: barrier_type → Out: legal classification
AuthorizationDoctrineEngine [Access Control] — Permission questions
In: actor, resource, context → Out: authorization map
BarrierValidityAnalyzer [Access Control] — Paywalls logins restrictions
In: barrier → Out: validity assessment, lawful alternatives
RoleBasedAuthMapper [Access Control] — Role-gated portals
In: desired_role, portal → Out: lawful role acquisition path
LawfulAlternativeRouter [Access Control] — Any blocked resource
In: resource, barrier → Out: ranked lawful alternatives
