

Global Lawful Records Access Manual v2

USA + Canada/BC + Libraries + Ownership · Lawful only · No bypass

2026-09-09 · global-lawful-records-access skill

Global Lawful Records Access Manual (v2)

****Lawful channels only. No illegal circumvention. No exploits. No security bypass.****

Maximum-detail operational blueprint for accessing information legally when it is normally behind paywalls, logins, or restricted portals — via ****authorized alternative channels only****.

Part 0 — Master doctrines

1. ****Authorization**** — public portal, statutory fee, FOIA/FOI/ATI, library card you hold, employment, court order, client permission, or content you purchased.

2. ****Ownership**** — export your own account data; do not use others' credentials.

3. ****Barrier validity**** — paywalls, logins, geo-blocks, CAPTCHAs, sealed files, and robots.txt are real. Alternatives must be lawful (OA, library, registry fee, FOI, counsel), never cracked.

****Categories:**** business · property · court · academic · news · government · corporate · legal statutes · technical standards

****Barriers:**** paywall · login · subscription · role-based · geographic · fee · sealed

Part 1 — 10-phase master process (global)

```
. Phase . Name . Core action .
. --- . --- . --- .
. 1 . Identify type & barrier . Classify + doctrine .
. 2 . Public registries . Business, land, court official portals .
. 3 . Library systems . JSTOR/ProQuest/Lexis via **your** card .
. 4 . Open access academic . Unpaywall, arXiv, PMC, CORE... .
. 5 . Author / institutional copies . Lawfully posted PDFs .
. 6 . Government open data . Data.gov, open.canada.ca, BC catalogue... .
. 7 . Authorized mirrors . Internet Archive, national archives .
. 8 . Ownership / own accounts . Download-my-data, purchases .
. 9 . Role-based auth . Job / bar / order / client .
. 10 . Paywall alternatives . Same facts via legal sources .
```

Universal steps each phase: classify → authorize → select portal → search → retrieve lawfully → provenance (URL, time, hash) → minimize PII → tag confidence → persist → escalate lawfully or stop.

Part 2 — Complete operational checklist (global)

A. Intake

• **■** Purpose · type · country/province/county · names/IDs · barrier · auth · HITL · minimization

B. Path

• **■** Free portal · fee registry · FOIA/FOI · library · role auth · sealed→counsel · else STOP

C. Pre-flight

• **■** Official URL · ToS/robots · rate plan · capture plan · vault path · no stolen keys

D. Execute

- ■ Business · Property · Court · Gov · Academic · News (tick relevant sections in skill assets)

E. Close

- ■ Provenance · hash · SOLID/MAYBE · dual-persist · FUs · never-do list clean

****Canada/BC extra checklist:**** see `CHECKLIST\_CANADA\_BC\_LIBRARY.md`

Part 3 — Flowchart decision tree

```

START → TYPE → JURISDICTION (US / CA-BC / UK / ...) → BARRIER → AUTHORIZED?
NO → STOP (FOI, fee, library card, counsel, court order, purchase)
YES ↓
BUSINESS → SOS / EDGAR / BC Corporate Online / Corporations Canada / Companies House / ...
PROPERTY → County recorder / ACRIS / BC LTSA / HM Land Registry / ...
COURT → CourtListener→PACER / CSO BC / CanLII / national portals; sealed=counsel
ACADEMIC → Unpaywall → OA → library → author copy; never pirate
GOV → Open data → FOIA/FOI/ATI
NEWS → press / wire / library DB / Wayback
LOGIN → your credential or documented role only
AFTER → URL+time+portal → hash → tag → minimize → persist → END

```

Part 4 — All tools + all steps (condensed master)

USA

Business: EDGAR, state SOS, IRS EO, OpenCorporates, UCC

Property: county recorder/assessor, ACRIS, JustFix

Court: CourtListener, PACER, state portals

Gov: FOIA.gov, Data.gov, Federal Register

Canada / BC

Business: ****BC Corporate Online****, Corporations Canada, provincial registries, OpenCorporates

Property: ****BC LTSA****, provincial land, municipal tax

Court: ****Court Services Online (BC)****, federal/provincial, ****CanLII****

Gov: open.canada.ca, BC Data Catalogue, StatCan, municipal open data, FOI/ATI

Libraries (premium, lawful)

Surrey PL · Vancouver PL · university walk-in/alumni · ILL

Databases: JSTOR, ProQuest, LexisNexis, Gale, EBSCO

Academic OA

Unpaywall, arXiv, SSRN, PMC, CORE, BASE, DOAJ

Author copies

ResearchGate/Academia (author-posted), faculty pages, institutional repos

UK / AU / IN / SG / NZ / EU

Companies House, HM Land, ASIC, MCA, ACRA, LINZ, national registers, CJEU, EU Open Data

Archives

Internet Archive, Library and Archives Canada, national archives

Part 5 — Specialized: business, deeds, legal filings

Business

Get: articles, annuals, directors, agents, charges, 10-K, 990.

CA: BC Corporate Online / Corporations Canada. US: SOS+EDGAR. UK: Companies House.

Schema: entity, jurisdiction, reg#, status, officers, agent, address, filing_date, url, time, hash.

Deeds / land

Get: title, charges, liens, plans, tax owner.

CA: BC LTSA by address/PID. US: county + ACRIS. UK: HM Land (fee).

Occupancy without unit deed → corporate/sponsor hold pattern (structure note).

Schema: address, PID/parcel/BBL, owner, doc_id, type, date, grantor, grantee, url, time, hash.

Legal filings

Get: public pleadings, orders, judgments, dockets, CanLII decisions.

Not: sealed, publication bans, youth/family restricted without lawful access.

US: CourtListener → PACER. BC: Court Services Online.

Schema: case, number, court, doc#, type, filed, parties, counsel, url, time, hash.

Combined recipe

Entity → registry officers/addresses → land title → court portals → library secondary → open data/FOI → graph → dual-persist.

Part 6 — Paywall / login / geo — legal alternatives only

```
· Barrier · Legal route ·  
· --- · --- ·  
· News paywall · Library DB, press release, wire free tier, government summary ·  
· Journal paywall · Unpaywall, preprint, author copy, library JSTOR/ProQuest, ILL ·  
· Corporate DB paywall · Official registry statutory extract (often cheaper/primary) ·  
· Login portal · Your account, library card, role authorization, FOI release ·  
· Geo block on license · Local library / national OA / FOI – not license-violating VPN abuse ·  
· Sealed court · Counsel + motion / statutory exception ·
```

Part 7 — Never-do list

- Crack paywalls or logins
- CAPTCHA farms / bot evasion of security
- Credential stuffing or shared PACER/library fraud
- Access sealed / publication-banned files without authority
- Pirate academic (Sci-Hub etc. as method)
- Hack FOIA/FOI systems
- Bulk private personal data beyond public-record ceiling

Part 8 — Sign-off

```
· Field · Value ·  
· --- · --- ·  
· Job ID · ·  
· Operator · ·  
· Date · ·  
· Jurisdictions · ·  
· Portals used · ·  
· Library card used · Y/N ·  
· Fees / FOI IDs · ·  
· Hashes · ·  
· HITL ref · ·  
· Compliance pass · Y/N ·
```
